DAVISSON FALCÃO SILVA JÚNIOR

Full-Stack Software Developer | C# | .NET 8 | Angular | TypeScript | REST APIs | SQL Server

Brazil | English (B2) | davissonfalcaosjr@gmail.com | linkedin.com/in/davisson-falcao/

PROFESSIONAL SUMMARY

Full-Stack Software Developer with 2.5+ years of professional experience building enterprise web applications using Angular, TypeScript, C#, .NET 8, RESTful APIs, and SQL Server. Experienced across frontend and backend development, legacy modernization, reusable component architecture, database integration, document processing, and application performance optimization.

Strong experience with Git, Docker, CI/CD, Agile methodologies, SOLID principles, and application observability using Grafana and Prometheus. Experienced collaborating across frontend, backend, DevOps, and business teams throughout the software development lifecycle.

Currently pursuing a B.Sc. in Information Systems and continuously expanding knowledge in backend architecture, cloud technologies, DevOps, and scalable software development.

PROFESSIONAL EXPERIENCE

ELogica — Full-Stack Developer

Apr 2025 – Present | Brazil

- Develop and maintain enterprise web applications using Angular 18, TypeScript, C# and .NET 8, integrating RESTful APIs and SQL Server.
- Develop and maintain robust RESTful APIs using C# and .NET 8 to support enterprise business workflows.
- Build reusable Angular components and frontend architecture patterns, improving maintainability, consistency, and development efficiency.
- Implemented automated document processing and PDF generation capabilities for enterprise applications.
- Developed a chunked document download process that increased the system's capacity from 10 to 125 documents per operation, improving scalability and user experience.
- Implemented polling mechanisms to provide download progress feedback through progress indicators.
- Integrated external services and APIs into backend and business workflows.
- Collaborated with application monitoring and observability initiatives using Grafana and Prometheus.
- Improved CI/CD deployment performance by migrating build processes to Docker and automating server file transfers through SMB, reducing deployment time from approximately 40 minutes to under 3 minutes.
- Participated in Scrum and Kanban processes, collaborating on requirements, implementation, troubleshooting, and delivery.
- Contributed to legacy system modernization using modern .NET and Angular architectures.

ELogica — Software Development Intern

Jan 2025 – Apr 2025 | Remote / Brazil

- Refactored legacy code into modern .NET and Angular architectures, improving maintainability and execution efficiency.
- Developed end-to-end features using C#, TypeScript, SQL, and relational databases.
- Applied SOLID principles and clean coding practices during feature development and refactoring.
- Worked within Agile development processes and collaborated with other developers throughout the software development lifecycle.

Freelance Software Developer — Full-Stack Developer

Jun 2024 – Jan 2025 | Remote

- Designed and deployed responsive web applications and business management software for small and medium-sized clients.
- Developed solutions using React, Vue.js, Node.js, MongoDB, SQL, and JavaScript.
- Managed the complete Software Development Lifecycle (SDLC), from requirements gathering through development, deployment, and hosting.
- Worked directly with clients to understand requirements and deliver production-ready solutions.

TECHNICAL SKILLS

Programming Languages: C#, TypeScript, JavaScript, SQL, HTML5, CSS3 / SASS

Frontend: Angular 18, React, Vue.js, Bootstrap, Responsive Web Development

Backend & APIs: .NET 8, .NET Core, Node.js, RESTful APIs, SOLID Principles

Databases: SQL Server, MongoDB, Relational Databases, SQL

DevOps & Infrastructure: Docker, CI/CD, Azure DevOps, Git, GitHub, GitLab, SMB

Monitoring & Observability: Grafana, Prometheus

Software Development: Agile, Scrum, Kanban, SDLC, Legacy Modernization, Performance Optimization, Code Refactoring

EDUCATION

B.Sc. Information Systems — UNIASSELVI | Expected 2028

CERTIFICATIONS & COURSES

- C# Object-Oriented Programming — Alura
- Advanced SQL Server Development — Alura
- Advanced Angular Development — Alura
- Front-End Engineering — Danki Code
- React Development — Danki Code
- Vue.js — Danki Code
- Scrum Master Fundamentals — Danki Code

LANGUAGES

Portuguese: Native English: B2 — Professional Working Proficiency
